The MD Notebook optimally realizes the minimum functions of a notebook require.

□ Concept

You can write whatever you want.
You can write a diary, say something about your hobbies, or jot down your favorite shops...
What you write will become the only book in the world that you want to cherish.

Remember what you felt when you were in front of blank paper during your childhood.
Aren't you excited just thinking about writing a new story?

When you have finished writing, the notebook will be a book especially for you.
Place it alongside your favorite books on a bookshelf.

□ About MD PAPER

For a long time, we had considered what kind of paper is high quality writing paper. The writing paper of a diary, notebook and schedule book is important material for people to write down personal memories, ideas and plans.

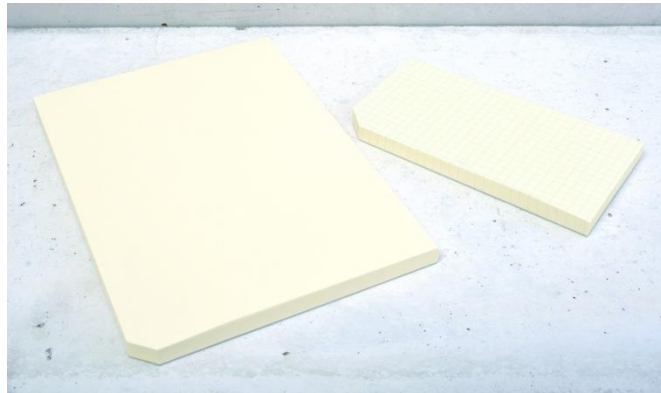

MD Paper was born in 1960 as an original writing paper **made in Japan**, which offered a comfortable writing experience through its ink resistance and anti-transparency.

Only paper that passes our quality standard is used for diaries, notebooks and schedule books as MD Paper. Enjoy the comfortable writing feel of MD Paper.
